

# “Impact of COVID-19 Pandemic on ASEAN Energy Sector”

20 May 2020, 14.00 – 15.30 Hrs. (GMT+7 Bangkok), Via ZOOM

 **Special Speaker**

## **Mr. Peter du Pont, Ph.D.**

Managing Partner, Asia Clean Energy Partners Ltd.  
Asia Regional Coordinator, Private Financing Advisory Network (PFAN)

*Topic: Challenges for ASEAN's Energy Sector in the Time of COVID-19: Perspectives from Clean Energy Business Owners*

Dr. Peter du Pont is based in Bangkok and has more than 30 years' experience developing sustainable energy and climate programs in the U.S. and Asia. He has carried out assignments related to the design, implementation, and evaluation of clean energy policy and plans, energy and climate finance, and climate change programs. He has worked in a variety of roles consulting and managing for non-profit and private consultancies and development agencies, with a focus on energy efficiency, renewable energy, finance and market incentives, and climate change. He manages an Asia-based international consultancy, Asia Clean Energy Partners, which provides services and solutions for clients in the development and business sectors. In his role as Asia Regional Coordinator for PFAN, he works with Country Coordinators across 12 countries to support development of a pipeline of quality, bankable clean energy projects through effective mentoring and networking, while also building strong linkages with debt and equity investors seeking opportunities across the region. Dr. du Pont has a masters degree in Public Health from the University of California, Berkeley, and a Ph.D. in Energy and Environmental Policy from the University of Delaware.
