## PRESENTS TECHNOLOGY & INNOVATION ENERGY RESEARCH AND DEVELOPMENT...

The Electricity Generating Authority of Thailand (EGAT) recognizes the importance of being an agency that produces happiness for the Thai people and the stability of the country's power system. We have developed Innovation in the power generation business that focuses on improving people's quality of life, both in terms of smart home and e mobility, etc., in line with the show concept. EGAT chooses to use ASE 2020 as a platform to present our research and development projects. This year, at the show, we will present technology under the EGAT E-mobility concept. We will be presenting research and development projects on the electric vehicle EV Kit and Blueprint Project, EGAT EV Charger Project, research project study on the potential of Electric Motorcycle that is suitable for public taxi services, etc. We would like to invite the public and interested parties for people to study and learn about the advancement of energy innovation and technology. The end result is a better quality of life. We also hope that the show will be a starting point for the energy industry to return to its strong position once again.

## INNOVATION SHOWCASE ON ENERGY TECH 4.0 AND SMART LIVING

This the section on research & development and technology showcases from Thai university students. Don't miss to visiting this area, these prototypes can be further developed to commercialize and launch into the market. Some of the showcases include hydrogen separation equipment, Solar powered vehicle SCT-3, Energy-saving home design, development of the Perrovs Guide material and more!

## 5G and Edge ConneX Data Centers Seminar

Attended by Top Executives

5G isn't just the speed of data transmission but is also related to innovations that have been developed widely, whether IoT, Big Data, ML, AR, VR or AI. 5G Edge ConneX Data Centers seminar aims to highlight the important of data center and the future of investment in the data infrastructure. This includes the integrated energy consumption and energy efficiency. The seminar received great interest attended by Corporate Executives, VIPs, Professional, and Leading related Agencies.

## THE FUTURE OF THAI INDUSTRY AND BCG MODEL SEMINARS CONDUCTED BY THE DEPARTMENT OF INDUSTRIAL WORKS (DIW)

### WAS A GREAT SUCCESS!

This is another popular seminar that has been taking place at the Boilex Asia and Pumps & Valves Asia 2020. The two-day seminars and workshops were organized by the Department of Industrial Works. The main topic this year is on the BCG model of integrating 3 economies: Bioeconomy, Circular Economy, and Green Economy - all at the same time in order to drive Thailand's Industry 4.0 as powerfully as possible.

### ATTRACTING QUALITY VISITORS WITH PURCHASING INTENTION!

TOZEN's products are in the stainless-steel expansion and flexible joint range. We offer a wide range of products to meet a variety of requirements and needs. Pumps & Valves Asia 2020 is the largest and specialist event that fit with our product's profile. We continue to exhibit this event in order to offer our high quality to the target audience. So far the feedback from the show has been exceeded our expectations. With the current economic and situation, visitors may be worried and will not come to the show but visitors that visit the show are those with the intention of buying and have requested us a lot of information about our products.

**Informa AllSecure**  
This event is produced to the Informa AllSecure Standard

### "NEW NORMAL" EXHIBITION WITH POSITIVE RESULT!

According to Informa AllSecure to provide confidence to all participants, maintaining the highest safety in hygienic standard is the priority. With the new normal and social distance policy, the organizer considered the safety and hygiene of all the exhibitors and visitors. Onsite hygiene measures and social distancing policies has been implemented. The organizer has collaborated with leader companies to installed modern technology and tools to support this effort. Some of the measures including automatic hand sanitizer dispenser, walkway sprayed disinfectant before entering the work, implement e-badge to avoid direct contact and more!
